

KAYLA'S MAGICAL COILY HAIR BOOK EVENT

*With Author
Victoria Johnson*

Kayla's Magical Coily Hair is a story about self-love and learning to see the value/beauty in yourself as you are. We are reaching out because we believe the book's message is powerful for all children and we wanted to organize an event with your elementary school.

What will happen during the event?

During the event, the author would read a few pages of the story and talk about the importance of creativity, imagination, reading, and writing. The author would then complete an activity with the students where they each get or make a blank mini booklet to start their own stories (and they can continue to expand on their stories beyond the event).

How would we collaborate to prepare for the event?

The author would send a form in advance to you so that it can be sent home with each of the students. The form can double as a permission slip for the event as well as a way for parents to submit payment for the book if they are interested. We want the majority of the sales to be taken care of in advance but, the author will have a few copies at the event. The day of the event, each of the teachers will have however many copies were paid for by each family and disperse them. All of the copies will be signed by the author in advanced.

Educational benefits of the event:

This event encourages reading, creative writing, and imagination. The benefits of encouraging reading and creative writing are obvious and align with all curriculums. Below you will find a few reasons that encouraging imagination is important.

5 Reasons Imagination is Important

1. Imagination promotes creativity and innovation, both of which are essential for success in many areas of life.
2. Imagination allows us to explore new ideas and find solutions to problems.
3. Imagination helps us develop empathy and emotional intelligence.
4. Imagination can provide us with a sense of joy and wonder, allowing us to escape the mundane and explore the world around us.
5. Imagination can help us to be more open-minded and tolerant of different perspectives, allowing us to better understand and accept those who are different from us.

We're very excited to extend this offer to your elementary school! We hope to hear from you very soon.
